

# Zebra's Z-Slip

An All-in-One Packing Slip Solution

## Another Reliable Innovation from Zebra

At Zebra, we've built our name by providing the most reliable printing solutions. Now, Zebra is bringing a patent-pending solution to the shipping department. Simply pair Zebra's new Z-Slip packing slip material with the Zebra 170Xi4™ printer, and you've got a fast, reliable, all-in-one packing slip solution. Just print, peel, and apply!

## Does This Sound Familiar?

Your packing slip information is sent to your laser printer. You fold the slip once, twice, three times. You slide the slip into the sleeve, remove the liner and slap the sleeve onto the box. How long does it take you to do one of these? 20 seconds, 30 seconds, a minute? There has got to be an easier way.

And there is. Introducing the Z-Slip packing-slip printing system from Zebra. Just print, peel and apply, and you've got a package that's ready to ship.

## An Outside Packing List is Better

If you currently put packing list information into a box because of the time it takes to print and apply the traditional packing list, consider what happens when a package is sent to the wrong location.

Somebody must now open the box and identify its contents. If the products aren't labeled, this forces the shipping department to play detective to find the correct recipient—resulting in lost time. If no recipient is found, the package may end up "lost," forcing the shipper to resend. Avoid these problems with Zebra's fast print-and-apply packing slip solution.

## A Name You Can Trust

If you're like 90 percent of Fortune 500 companies, you probably already have a Zebra printer and it's likely on your shipping dock. When you pair the Z-Slip packing slip material with a Zebra 170Xi4 printer, you've got a rock-solid system that will keep up with your shipping needs three shifts a day, every day.

**Order part number 10004425 for a 6.625" x 6" (5.625" x 5" printable area) Z-Slip label.**

### By the Numbers

**40 seconds** Average time to print and apply **traditional** packing slip.

**11 seconds** Average time to print and apply **Z-Slip** packing slip.

For a distribution center shipping 1000 packages per day, Z-Slip can offer a savings of:

- **29** seconds/package
- **8.0** hrs/day
- **2000** hrs/year
